Bill Section 10.115, 10.130, 10.410

The Department of Mental Health (DMH) is requesting funding for the Division of Behavioral Health (DBH) and the Division of Developmental Disabilities (DD) utilization for services. Well over half of the 190,000 individuals served by DMH are Medicaid-eligible. The percentage of existing Medicaid-eligible individuals accessing DMH Medicaid services continues to grow each year beyond overall Mo HealthNet caseload growth such as the following:

DBH is anticipating an increase of Comprehensive Substance Treatment and Rehabilitation (CSTAR) providers to serve Missourians and utilization increases relating to adults and youth. Many adults experiencing first-break mental illness or children and youth experiencing severe emotional disorders are already Medicaid-eligible but have not previously sought DMH treatment; Medical health care providers are becoming more aware of the impact of mental illness and substance use disorders (SUD) on physical health conditions, and are becoming increasingly sophisticated in diagnosing them.

DD is experiencing increased needs for DD Health Home and requests additional funding. In addition, the utilization funding will cover the costs of Medicaid eligible individuals already receiving services. If not funded, the individuals may not receive waiver services putting them at risk for institutionalization and waiver providers may not get paid for services rendered. It would also result in a waitlist for individuals to receive DD waiver services.

This request includes cost to continue funding from the FY26 Supplemental Request.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

State-operated facilities are required by accreditation and certification to provide appropriate patient care which includes medical care, food, and a clean and safe environment. The state-operated facilities must comply with standards adopted by the federal government for consumers. State-operated facilities, like the general population, are facing growing costs for medical care and food costs. Increased costs have severely eroded facility expense and equipment budgets and make it difficult to meet the federal government requirements and special dietary needs of the population served. This decision item requests funding for the ongoing inflationary costs to provide medical care and provide food to the state-operated facilities.

Medication is an essential treatment component for persons with serious mental illness, substance use disorders (SUD), and developmental disabilities. State facilities, as well as community providers, face growing costs for medications. Additional funds for medication cost increases are needed to ensure access to the most effective treatments.

This decision item requests funding for the ongoing inflation of pharmaceuticals that can be attributed to the rising cost of drug ingredients; increase in units per prescription; cost of new, expensive medications; and utilization increases. The inflation rate requested in this decision item is identical to the inflation rate requested by MO HealthNet Division for the Pharmacy program.

This item also includes funding to cover the annual cost increase for contracted pharmacy and advanced practitioner services.

2. CORE DESCRIPTION

Senate Bill 367, passed in the 2005 legislative session, allows employees providing direct client care in state institutions that are operated 24 hours per day, 7 days per week to request payment in lieu of compensatory time off. These requests may be made and must be paid each month. This includes federal, state, and holiday time.

In FY 2008, a departmentwide overtime appropriation was created for greater flexibility across all facilities to meet the legislative requirements for overtime pay. To ensure payments are made as required, one-half of the new funding received in FY 2007 in each direct facility appropriation was reallocated into this departmentwide AB Section.

2. CORE DESCRIPTION

This core funding will allow for training needed for direct care staff and provide maintenance costs for the Network of Care information and Learning Management System.

Surveys of direct care and regional center staff and an assessment of DMH training/workforce development needs indicates that staff training and development is not adequate and has negatively impacted the department's ability to: (1) provide quality care and services; (2) recruit and retain qualified personnel; (3) develop successful leaders, managers and supervisors; and (4) improve and sustain operational effectiveness and efficiency.

Increased and ongoing investment in staff training and development is critical to:

- Ensuring the safety of consumers and employees;
- Providing meaningful treatment and support of consumers with aggressive behaviors;
- Providing meaningful treatment and support of consumers with complex and co-occurring medical, developmental, psychiatric and substance use disorders;
- Meeting licensing and accreditation requirements;
- Meeting state guidelines for supervisor and management training; and
- Improving service delivery through the use of new, complex technology and data systems.

2. CORE DESCRIPTION

In the FY 2025 budget, the General Assembly appropriated federal funding to the Department of Mental Health (DMH) to focus on improving the health and retention of all DMH employees. Team members who feel supported by their employer come to work more engaged and productive. Like military, law enforcement, and other first responders, Mental Health employees experience trauma on a daily basis while at work. These traumatic events can have long lasting impact on their lives.

In response, the department has developed the Critical Incident Stress Management (CISM) Peer Network to respond to workplace trauma. There is a strong need to focus on the overall health and mental health of staff in order to address the impacts of workplace exposure to violence, trauma, and traumatic events. Impacts of workplace trauma include: greater work absenteeism, increased job turnover, poor physical health, depression, Post-Traumatic Stress Disorder, a significantly higher rate of worker's compensation injuries, and many other negative consequences.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 750013B BUDGET UNIT NAME: REFUNDS APPROPRIATION BILL SECTION: 10.035	DEPARTMENT: DEPARTMENT OF MENTAL HEALTH DIVISION: DIRECTOR'S OFFICE
---	--

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

Twenty-five percent (25%) flexibility is allowed between federal and other funds. For proper accounting purposes, the Department of Mental Health (DMH) must refund third party payers from the fund that may have overbilled or collected duplicate payments. DMH requires flexibility between funds to not adversely affect the facilities' operations.

2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.

PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED	CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED	ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED
None used.	DMH does not have flex in this section for FY26.	Flexibility usage is difficult to estimate at this time.

3. Please explain how flexibility was used in the prior and/or current years.

PRIOR YEAR EXPLAIN ACTUAL USE	CURRENT YEAR EXPLAIN PLANNED USE
None used.	None used.

2. CORE DESCRIPTION

This appropriation allows the Department of Mental Health (DMH) to accept federal grant funding that becomes available during a current fiscal year. Procedures consistent with the provisions of Section 630.090, RSMo. are followed.

In order to maximize the federal funding received in a fiscal year, the department needs to be able to accept and expend federal funding when it becomes available. The department utilizes this appropriation to take advantage of federal grant opportunities in a timely manner. Federal funds received are used only for a given year and if the funding continues into the next fiscal year, a new decision item is requested. Section 33.812, RSMo. requires that the department submit all new grant applications to the Office of Administration, the Budget Committee of the Missouri House of Representatives, and the Appropriations Committee of the Missouri Senate for review before accepting the federal funding.

2. CORE DESCRIPTION

Federal regulations permit a Medicaid claim based on an established maximum calculation using Medicare rules. The maximum amount that could be paid is called the Upper Payment Limit (UPL). This authority provides the mechanism that allows the State of Missouri to capture additional federal funds from the UPL claim on the state-operated ICF/IID facilities (DD habilitation centers).

The Upper Payment Limit regulation was established in 1981 and was initially designed to:

- Set a maximum cap/ceiling on payments to facilities;
- Allow states the flexibility to pay providers differently accounting for higher costs;
- Set reasonable rates that reflect the volume and costs of Medicaid services; and
- Ensure that safety net services would be sufficiently funded.

2. CORE DESCRIPTION

Federal Medicaid regulation (42 CFR 433.51) requires state and local governmental units (including public providers) to transfer funds to the Department of Social Services (DSS) as the non-federal (state match) share of Medicaid payments to draw federal participation. These transfers are called intergovernmental transfers. This funding maximizes eligible costs for federal Medicaid funds, utilizing current state and local funding sources as match for services. Currently, the Department of Mental Health (DMH) utilizes an intergovernmental transfer (IGT) reimbursement methodology, where DMH serves as a provider of Medicaid services to DSS for certain community providers. This appropriated non-counted transfer section provides an accounting mechanism to reconcile disproportionate share payments for CPS psychiatric hospitals, Community Psychiatric Rehabilitation (CPR), Comprehensive Substance Abuse Treatment and Rehabilitation (CSTAR), and Certified Community Behavior Health Organizations (CCBHO) as required by the Centers for Medicare & Medicaid Services (CMS).

2. CORE DESCRIPTION

Federal Medicaid regulation (42 CFR 433.51) requires state and local governmental units (including public providers) to transfer funds to the Department of Social Services (DSS) as the non-federal (state match) share of Medicaid payments to draw federal participation. These transfers are called intergovernmental transfers. This funding maximizes eligible costs for federal Medicaid funds, utilizing current state and local funding sources as match for services. Currently, the Department of Mental Health (DMH) utilizes an intergovernmental transfer (IGT) reimbursement methodology, where DMH serves as a provider of Medicaid services to DSS for certain community providers. This core item allows DMH to deposit state match received from DSS into DMH Federal Funds and then transfer these same funds into General Revenue to reflect a non-counted transfer from DMH back to GR.

2. CORE DESCRIPTION

This is an appropriated transfer section that allows for the movement of a portion of Disproportionate Share Hospital program (DSH) federal reimbursements to General Revenue.

The DSH program allows states to leverage additional federal funds intended to ease the burden of serving the underinsured. Under the DSH program, hospitals that serve a high proportion of MO HealthNet, low-income Medicare and uninsured patients are eligible for additional state payments, matched at the regular federal matching rate.

2. CORE DESCRIPTION

During the FY 2022 Legislative session, a new fund related to Children's Health Insurance Program (CHIP) payments was established, fund 0159. Because the Department of Mental Health (DMH) and Department of Social Services (DSS) process claims in two different systems, the status of an individual's Medicaid eligibility can be reported differently when claims are processed. DSS will pay DMH based on the Medicaid eligibility in the DSS system, but DMH pays contracted providers based on the Medicaid eligibility in the DMH system. This causes funding to be deposited into a different fund at DMH than where the payment is made, thereby creating a cash balance. In FY 2026, \$10 Million was appropriated to transfer a portion of the cash balance to General Revenue (GR).

Funding was appropriated as one-time funds in FY 2026; therefore, it is core reduced in the FY 2027 budget.

2. CORE DESCRIPTION

Missouri state statute mandates that certain fees and costs for involuntary civil detention proceedings for an individual who presents a likelihood of harm due to a mental illness or substance use disorder be paid by the State (Sections 56.700, 57.280, 488.435, 630.130, 632.415, RSMo.). It is required that reasonable attorney fees and costs be paid in involuntary civil detention hearings when the court has determined that the individual is unable to pay. In addition, sheriff mileage fees for executing a court warrant for civil involuntary detention proceedings are considered court costs and are reimbursed at the rate set by the Internal Revenue Service. Funding will be used for attorney expenses incurred on behalf of individuals civilly committed by the courts who are unable to pay and for sheriff mileage fees for executing a court warrant for civil involuntary detention proceedings.

2. CORE DESCRIPTION

The Division of Behavioral Health (DBH) supports prevention initiatives including community and school-based substance use prevention and intervention services. Substance use prevention efforts are focused on individuals, families, schools, and communities through education and organizational efforts of local volunteer coalitions through technical assistance and training. School-based Prevention Intervention and Resources Initiative (SPIRIT) is a specific evidence-based program that focuses on delaying the onset of substance use; decreases the use of substances; improves overall school performance; and reduces incidents of violence. To achieve these goals, prevention agencies are paired with school districts to provide technical assistance in implementing the evidence-based practice. The Department of Mental Health (DMH) partners with key stakeholders to hold the annual substance use prevention conference and coordinate production/dissemination of educational materials. In addition, DBH supports implementation of evidence-based prevention programming, which includes overdose prevention; development of the prevention workforce; and dissemination of information statewide.

2. CORE DESCRIPTION

In 2023, there were 1,427 Missourians who lost their lives due to an opioid overdose. Naloxone is a medication approved by the Food and Drug Administration (FDA) and is an opioid antagonist designed to rapidly reverse an opioid overdose by blocking the effects of opioids and quickly restores normal breathing. Demand for naloxone and training on Overdose Education and Naloxone Distribution (OEND) continues to climb. This funding supports training, as well as the distribution of naloxone kits, which can be used by behavioral health providers, shelters, social service organizations, street outreach, Engaging Patients in Care Coordination (EPICC) Recovery Coaches, Federally Qualified Health Centers (FQHC), law enforcement, substance use treatment providers, schools, prevention organizations, vending machines, and other individuals/community groups. The funding allows more at-risk individuals, their families, and communities access to life saving naloxone.

2. THIS REQUEST CAN BE CATEGORIZED AS:

Other: Opioid Treatment and Recovery Fund Pickup

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

In 2023, there were 1,420 Missourians who lost their lives due to an opioid related overdose. Naloxone (brand name is Narcan) is a medication approved by the Food and Drug Administration (FDA) to rapidly reverse an opioid overdose by quickly restoring normal breathing. Demand for naloxone and training on Overdose Education and Naloxone Distribution (OEND) continues to climb. This funding will support this training, as well as the distribution of naloxone kits which can be used by priority groups such as law enforcement, first responders, hospitals or other individuals/community groups. The approval of this request will allow more at-risk individuals, their families, and communities access to life-saving naloxone.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

DMH is requesting \$8 million in ongoing Opioid Treatment and Recovery Fund to support the distribution of Naloxone and training on Overdose Education and Naloxone Distribution (OEND). In FY26, DMH received one-time funding of \$8 million for distribution of naloxone.

2. CORE DESCRIPTION

Research has shown that from the time of addiction onset, it takes approximately 15 years for the average recovering person to reach the same quality of life and functioning as someone in the general population. However, research has also found that individuals who participated in ongoing recovery support services, were able to reach the same level of quality of life as the general population in only 5 years.

Recovery Support Services (RSS) are peer and community-based services available before, during, and after clinical treatment, or may be the sole source of recovery assistance for some individuals. Services include care coordination, recovery coaching, spiritual counseling, group support, recovery housing, and transportation. RSS can stand alone or complement substance use disorder (SUD) clinical treatment programs by expanding access to an array of supportive services that include employment assistance and housing.

Recovery Community Centers (RCCs), a type of RSS program, are independent, non-profit organizations that provide a peer-based supportive community that help individuals initiate and sustain recovery over time by providing supportive relationships, advocacy training, recovery information, peer-support, social activities, and connection to treatment and other community-based services. Research has shown that RSS programs can help accelerate SUD remission.

2. CORE DESCRIPTION

Research has shown that from the time of addiction onset, it takes approximately 15 years for the average recovering person to reach the same quality of life and functioning as someone in the general population. However, research has also found that individuals who participated in ongoing recovery support services, were able to reach the same level of quality of life as the general population in only 5 years.

Recovery Support Services (RSS) are peer and community-based services available before, during, and after clinical treatment, or may be the sole source of recovery assistance for some individuals. Services include care coordination, recovery coaching, spiritual counseling, group support, recovery housing, and transportation. RSS can stand alone or complement substance use disorder (SUD) clinical treatment programs by expanding access to an array of supportive services that include employment assistance and housing.

The Division of Behavioral Health (DBH) collaborates with the Missouri Coalition of Recovery Support Providers (MCRSP), a network of faith-based, peer, and community organizations, that restore and rebuild lives and families seeking recovery from substance use disorders.

2. CORE DESCRIPTION

The Division of Behavioral Health (DBH) contracts with community-based providers for substance use disorder services. Community-based services are both successful and cost effective, through the use of medications and evidence-based therapies.

Treatment sites are located across the state to ensure all Missourians have access. DBH has developed a variety of programs that focus on providing a complete continuum of community-based services aimed at helping individuals successfully manage their chronic behavioral health disorders and achieve recovery. Services are individualized and a wide array of interventions are offered, including assessment; individual and group counseling; family counseling; medication management; education; peer and family support; participation in self-help groups; and employment supports.

Comprehensive Substance Treatment and Rehabilitation (CSTAR), is the only intensive substance use disorder program in Missouri reimbursed under MO HealthNet. DBH contracts with CSTAR providers, and Certified Community Behavioral Health Organizations (CCBHOs), to address the varying needs of those with substance use disorders.

The goals of treatment are to decrease adverse effects related to substance use or misuse. Such recovery goals include lowering the amount or frequency of substance use or misuse; reduction in criminal behavior associated with substance use or misuse; obtaining and maintaining meaningful employment or vocational/educational participation; securing safe and stable housing; and increasing healthy social connections.

NOTES:

FY 2024 - Increase in appropriation due to several new decision items including Home and Community Based Services (HCBS) Enhanced funding and value-based payments for recovery support providers.

FY 2025, 2026 – Decrease in authority is due to the reduction of federal authority related to The American Rescue Plan Act, 2021 (ARPA). Federal lapse is due to federal grants ending mid-year, as well as unused federal Medicaid authority due to individuals served were not Medicaid eligible. This eligibility changes frequently, so DBH needs authority to serve Medicaid individuals if they present for treatment.

Department of Mental Health (DMH) partners with Department of Corrections (DOC) to provide substance use treatment services for individuals involved with the DOC. Comprehensive Substance Treatment and Rehabilitation (CSTAR) programs are designed to provide an array of comprehensive, individualized treatment services with the aim of reducing the negative impacts of substance use disorders (SUD) to individuals, family members, and the community. CSTAR services increase individuals' abilities to successfully manage chronic SUDs, and features care that varies in duration and intensity. Individuals involved with DOC are considered a priority population for CSTAR programs.

DMH receives funding from DOC through the Inmate Revolving Fund to provide SUD treatment services. DOC reports a shortfall in the balance of the Inmate Revolving Fund. DMH is requesting a supplemental in FY26. A cost-to-continue is necessary in order to provide SUD services at the same level as previous years.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

This request is based on the amount of funding that was reduced from DOC due to the shortfall of Inmate Revolving Fund and will ensure services for this high-risk population are able to continue.

5. BREAK DOWN THE REQUEST BY BUDGET ACCOUNT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.

2. CORE DESCRIPTION

Funding will be used for Engaging Patients in Care Coordination (EPICC), which is a 24/7 referral and linkage service primarily for individuals surviving a drug overdose, but who also may present to hospitals with issues relating to opioid, stimulant, and/or alcohol use disorders. EPICC helps to establish immediate connections to wrap-around services, recovery support services, and substance use treatment. This specific funding supports two additional coaches in the western and southwest regions and one additional coach in the central region of the state.

With these additional funds, there are a total of 40 coaches throughout the state.

2. CORE DESCRIPTION

Attending and participating in school becomes exceedingly difficult for youth that struggle with substance use disorders (SUD) and may lead to them dropping out of high school. Section 167.850, RSMo. (2022) enabled the creation of pilot recovery high schools in Missouri. Recovery high schools are designed solely to serve and support students recovering from substance use/misuse and allow students to earn their high school diploma. Recovery high schools help students but also provide support for families. Funding will support treatment services for eligible students diagnosed with substance use disorder or misuse. This funding will promote partnerships between the Department of Mental Health (DMH), Department of Elementary and Secondary Education (DESE), local Certified Community Behavioral Health Organizations (CCBHO), and school districts, along with other non-profit stakeholders to support up to four recovery high schools located within the metropolitan areas of Missouri.

2. CORE DESCRIPTION

There is an increased urgency in increasing expertise around addiction because of the overdose crisis and the extreme workforce shortage in all professional domains. To this end, SUD fellowships have been developed to support medical providers in obtaining more education in the field of addiction and to work collaboratively in their practices with Addiction Medicine physicians as they would with other specialties, such as cardiology and endocrinology. Two fellowship programs, the SSM Health/Saint Louis University Addiction Medicine Fellowship (3 fellows) and the Kansas City University Graduate Medical Education Consortium (KCU-GME Consortium)/Ozark Center Addiction Medicine Fellowship (2 fellows), are accredited by the Accreditation Council for Graduate Medical Education (ACGME) and are conducted within the ACGME accredited psychiatry residency programs. This core will support these fellowships which will create a pathway into and increase the competency of the SUD workforce.

2. CORE DESCRIPTION

CORE DECISION ITEM

Dept Of Mental Health
Division of Behavioral Health
CORE - Mental Health Adult Community Treatment

Budget Unit 750035B
Bill Section 10.115

The Division of Behavioral Health (DBH) contracts with community-based providers for mental health treatment for adults. Community-based services are both successful and cost effective, through the use of medications and evidence-based therapies. This core provides funding for adults.

Treatment sites are located across the state to ensure all Missourians have access. DBH has developed a variety of programs that focus on providing a continuum of community-based services aimed at helping individuals successfully manage their chronic behavioral health disorders and achieve recovery. Services are individualized and a wide array of interventions are offered, including assessment; medication management; individual and group counseling; family counseling; education; peer and family support; participation in self-help groups; and employment supports.

Community Psychiatric Rehabilitation (CPR) programs that are designed for the seriously and persistently mentally ill are administered locally by contracted CPR providers, including those that are Certified Community Behavioral Health Organizations (CCBHOs). CPR is reimbursed by MO HealthNet.

The goals of treatment are to decrease adverse effects related to mental health disorders for adults. Such recovery goals include reduction in negative symptoms of mental illness; reduction in criminal behavior associated with mental illness; obtaining and maintaining meaningful employment or vocational/educational participation; securing safe and stable housing; and increasing healthy social connections.

NOTES:

FY 2024 - Increase in appropriation due to several new decision items including Home and Community Based Services (HCBS) Enhanced funding, additional authority for 988 Grant and Safer Communities Act Grant. In addition, the general revenue lapse due to health transportation and electroencephalogram Transcranial Magnetic Stimulation (eTMS).
FY 2025 - Reduction in authority was due to temporary federal grant funding that ended.
FY 2023- FY 2025 lapse is due to unused federal authority due to individuals served were not Medicaid eligible. This eligibility changes frequently, so DBH needs authority to serve Medicaid individuals if they present for treatment.

2. CORE DESCRIPTION

The Division of Behavioral Health (DBH), in partnership with MO HealthNet, allocates funding for psychiatric staff to Jordan Valley (Lebanon) and Sam Rodgers (Kansas City, Lexington and Liberty) Federally Qualified Health Centers (FQHCs). Using medications and evidence-based therapies for community-based services are both successful and cost effective. FQHCs are safety net providers that focus mainly on providing primary care and basic medical services but can also deliver less intensive behavioral health services in an outpatient clinic. FQHCs receive cost-based reimbursement for medically necessary primary health services and qualified preventive health services furnished by an FQHC practitioner.

2. CORE DESCRIPTION

Funding will be used for the MOConnect System for the maintenance and operation of the referral module.

The registry, referral and resource modules will provide a network for the public and other community stakeholders to access behavioral health services and community assistance resources (e.g., food, housing, transportation, education, legal, etc.). These modules will consist of two primary purposes: 1) A MOConnect branded website to provide general information and services for mental health, substance use disorders, and community assistance resources; and 2) Support a closed referral network connecting community stakeholders (e.g., crisis responders, crisis centers, law enforcement, Dept. of Corrections, Children's Division, etc.) by facilitating real-time, HIPAA-compliant referral transmission and tracking and status updates for referrals to behavioral health services.

2. CORE DESCRIPTION

The Department of Mental Health (DMH) has implemented an electroencephalogram combined transcranial magnetic stimulation (eTMS) pilot program. eTMS treatment protocols have been successful in improving some difficult-to-treat conditions such as Post-Traumatic Stress Disorder (PTSD), Depression, Anxiety, and Sleep Disorders. eTMS is highly customized and generates magnetic waves that gently stimulate specifically targeted areas of the brain. This treatment is non-invasive, painless, and drug-free. The equipment used for eTMS is approved by the Federal Drug Administration (FDA)

DI# NOP.75B.003****Budget Unit 750035B****Bill Section 10.115**

In FY26, the Department of Mental Health (DMH) received this funding as one-time. A cost-to-continue is needed for on-going support of 988.

Since its national launch in July of 2022, the 988 Suicide & Crisis Lifeline has played a vital role in providing rapid access to crisis services for individuals experiencing emotional distress or a mental health, suicide, or substance use crisis.

From FY 2023 to FY 2025, the number of 988 calls, text, and chats answered in Missouri increased by 122%. From July 2024 to June 2025, the percentage of 988 calls answered in Missouri per month averages 94%. This item requests ongoing support for the 988 Crisis Contact Centers to handle the increased call, text, and chat volume.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

DBH is requesting a GR pickup to cover costs of 988 Crisis Contact Centers that was appropriated as one-time in FY26. If not funded, Missouri would be out of compliance with federal regulations and not be able to staff the hotline adequately.

5. BREAK DOWN THE REQUEST BY BUDGET ACCOUNT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.

2. CORE DESCRIPTION

Maternal mortality in the United States is on the rise. One study ranked Missouri as the 44th worst state for maternal mortality. Missouri's Pregnancy Associated Mortality Review for 2018 to 2022 revealed that the most common cause of pregnancy associated deaths were mental health issues (includes suicide and overdoses). The majority of deaths occurred 43 days to one year postpartum.

The Missouri Department of Mental Health (DMH) received grant funding for Screening and Treatment for Maternal Mental Health and Substance Use Disorders on behalf of a consortium of partners, including the University of Missouri School of Medicine, to implement the Maternal Health Access Program (MHAP). The Maternal Health Access Program is a statewide perinatal psychiatry access program designed to give health care providers the resources they need to identify and manage their patients' perinatal mental and behavioral health conditions. Enrolled providers have free access to consultations with perinatal psychiatrists, as well as care coordination services, trainings, and other educational resources. The target population includes pregnant and postpartum persons in a 15-county area comprised of an eastern region of St. Louis City and the counties of St. Louis, Franklin, Jefferson, Lincoln, St. Charles, and Warren, and a central region including Boone, Cole, Moniteau, Cooper, Howard, Randolph, Audrain, and Callaway counties. Funds are used for universal screenings, training and toolkits for providers and other health care staff, psychiatric consultation and care coordination.

Missouri is one of the original eight states selected by the federal Centers for Medicare & Medicaid Services (CMS) and the Substance Abuse and Mental Health Services Administration (SAMHSA) to participate in a demonstration program to implement a Prospective Payment System (PPS) for the purchase of behavioral health services. The PPS is an actuarially sound, cost-based reimbursement method that replaces the current Medicaid fee-for-service methodology. Instead, Certified Community Behavioral Health Organizations (CCBHOs) recognized by the Department of Mental Health (DMH) who are in compliance with required federal and state standards receive a single, fixed payment amount for each day that they provide eligible services to a Medicaid-eligible individual. NOTES:

FY 2024 - Increase in authority due to 988 Crisis Services, CCBHO Medicare Economic Index (MEI), Utilization Increase, and Youth Behavioral Health Liaisons (YBHLs). Lapse of funds is due to delay in contracting with county jails for competency restoration.

2. CORE DESCRIPTION

Missouri is one of eight states initially selected by the federal Centers for Medicare & Medicaid Services (CMS) and the Substance Abuse and Mental Health Services Administration (SAMHSA) to participate in a demonstration program to implement a Prospective Payment System (PPS) for the purchase of behavioral health services. The PPS is an actuarially sound, cost-based reimbursement method that replaces the current Medicaid fee-for-service system. Instead, Certified Community Behavioral Health Organizations (CCBHOs) recognized by the Department of Mental Health (DMH) who are in compliance with required federal and state standards receive a single, fixed payment amount for each day that they provide eligible services to a Medicaid-eligible individual. Missouri currently has 20 CCBHOs that are participating in the federal demonstration, covering all 114 counties in the state.

CCBHOs are designed to improve the availability, accessibility, and quality of community behavioral healthcare. Many use same-day or next-day walk-in services to ensure more timely access. Serving adults and youth, CCBHOs integrate behavioral health with physical healthcare, while providing a comprehensive array of services that include crisis intervention, screening, treatment, prevention, peer and family support services, and wellness services for individuals with serious mental illnesses and substance use disorders (SUD). CCBHOs are required to use evidence-based practices. CCBHOs are eligible to receive a value-based payment if they successfully meet or exceed a set of established quality measures. This core supports services provided to youth.

2. CORE DESCRIPTION

The facility support house bill section allows the facilities to utilize Medicare collections for the purchase of medical services in order to comply with the Medicare bundling requirements. In addition, this allows the Division of Behavioral Health (DBH) to utilize state operated waiver collections to restore facilities expense and equipment costs incurred for training; pay for annual expenses to implement Medicare Part D; and to utilize Medicare Part D collections to assist facilities with staffing to manage over census pressures.

The Department of Mental Health's (DMH) state operated hospitals are subject to the hospital provider tax in Missouri. A portion of the hospital's net operating revenue is assessed on each hospital delivering services in the State. This house bill section allows DMH to pay the assessment on state operated hospitals.

2. CORE DESCRIPTION

The state-operated Sex Offender Rehabilitation and Treatment Services (SORTS) provides appropriate treatment and housing for individuals adjudicated by the courts as sexually violent predators. With passage of the Sexually Violent Predator law, which was effective January 1, 1999, the Missouri General Assembly mandated that individuals adjudicated by the court as sexually violent predators be committed indefinitely to the custody of the Director of the Department of Mental Health for "control, care and treatment until such time...that the person is safe to be at large". In order for such commitments to pass constitutional scrutiny, the Department must provide care and treatment that is consistent with existing professional standards and practice, and federal case law. The law also requires that individuals committed for treatment as sexually violent predators be kept in a secure facility and housed separately from Department of Corrections inmates and from other mental health clients who have not been found to be sexually violent predators.

This funding is for Fulton State Hospital (FSH) SORTS program, located in Fulton. There are currently 104 individuals in the FSH SORTS program.

2. CORE DESCRIPTION

The state-operated Sex Offender Rehabilitation and Treatment Services (SORTS) provides appropriate treatment and housing for individuals adjudicated by the courts as sexually violent predators. With passage of the Sexually Violent Predator law, which was effective January 1, 1999, the Missouri General Assembly mandated that individuals adjudicated by the court as sexually violent predators be committed indefinitely to the custody of the Director of the Department of Mental Health for "control, care and treatment until such time...that the person is safe to be at large". In order for such commitments to pass constitutional scrutiny, the Department must provide care and treatment that is consistent with existing professional standards and practice, and federal case law. The law also requires that individuals committed for treatment as sexually violent predators be kept in a secure facility and housed separately from Department of Corrections inmates and from other mental health clients who have not been found to be sexually violent predators.

This funding is for the Southeast Missouri Mental Health Center (SEMO MHC) - SORTS program located in Farmington. There are 161 individuals in the SEMO MHC SORTS program.

2. CORE DESCRIPTION

This core item funds the operation of Hawthorn Children's Psychiatric Hospital (HCPH) which provides psychiatric hospital inpatient and residential services to children and youth with Severe Emotional Disturbances (SED) or acute psychiatric needs whose needs cannot be met in an outpatient treatment setting. Based upon recent prevalence estimates*, around ten percent (10%) of Missouri children may be at risk of experiencing a severe emotional disturbance. This equates to approximately 137,447 Missouri children.

In response to growing referrals from social service agencies and families, the children's facility operated by the Division of Behavioral Health (DBH) is treating children with more challenging, complex, and deeply rooted behaviors. Many of these children are dually diagnosed with intellectual disabilities, which requires enhanced safety measures, staffing patterns, and staff skills. Most of the children in need of these services have experienced multiple traumatic events requiring an extensive comprehensive assessment and specific trauma focused evidence-based interventions.

HCPH is also unique in that the average length of stay for acute care hospitalization is more than 50 days -- 10 times that of the average private acute care stay.

This allows the DMH to use Federal funds generated by the state operated ICF/IIDs to support the Federal authority and FTEs redirected from the Regional Offices in FY 2009 to Community Support Staff.

2. CORE DESCRIPTION

Senate Bill 1081 (Chapter 633, Section 633.401, RSMo), signed into law on June 25, 2008, allows the state to implement a provider assessment on all Intermediate Care Facilities for Individuals with Intellectual Disabilities (ICF/IID). The legislation allows the state to impose a 5.95% provider assessment on operating revenues of both private and state operated ICF/IID facilities. ICF/IID provider taxes are limited to the threshold in effect May 1, 2025, which for ICF/IIDs continues to be 5.95%.

This core item is an appropriated transfer section to transfer funds from the ICF/ID Reimbursement Allowance Fund to DMH Federal funds. This allows the DMH to use Federal funds generated by the state operated ICF/IIDs to support the Federal authority and FTEs redirected from the Regional Offices in FY 2009 to Community Support Staff.

2. CORE DESCRIPTION

The primary mission of the Division of Developmental Disabilities (DD) Community Programs is to provide the supports necessary to enable persons with developmental disabilities to remain connected to their parents, families, school, and community. The Division of DD operates a community-based service delivery system through its regional offices for persons with developmental disabilities. The regional offices utilize core funding to contract with community providers who provide in-home supports, residential services, autism supports, and other specialized services to individuals who are able to choose their own service provider. The support services allow individuals to live in their community and stay connected with their family and live in their least restrictive environment. In addition, this core contains personal services funds, as well as expense and equipment funds, which are used to support staff who are responsible for oversight of community programs funding. This core also contains funding for the division's Value Based Payment (VBP) initiative based on integration of key identified outcomes that produce value-based care delivery models to improve quality and efficiency of the total care delivered to individuals within DD.

Section 12006(a) of the 21st Century Cures Act added 1903(l) to the Social Security Act, which mandates that states require Electronic Visit Verification (EVV) for all Medicaid personal care services (PCS) and home health care services (HHCS) for in-home visits by a provider. If states are not in compliance with this requirement, the state is subject to incremental reductions in Federal Medical Assistance Percentage (FMAP) match of PCS and HHCS expenditures that will eventually reach and continue at one percent until the state is compliant. In response, the Department of Social Services (DSS), MO Healthnet Division (MHD), promulgated Code of State Regulation 13 CSR 70-3.320.

EVV is a method of utilizing technology to capture point of service information related to the delivery of in-home services. EVV compliance can be achieved in a variety of manners, including but not limited to, the use of mobile applications with GPS capabilities, telephony from a landline, fixed devices and biometric recognition.

Per guidance from the Centers for Medicare & Medicaid Services (CMS), the next phase of EVV implementation requires the validation (matching) of claims to the data entered for each visit in the EVV Aggregator Solution (EAS) before payment of the claim. MHD first plans to implement a soft launch of the EVV claims validation to allow time for the Division of Developmental Disabilities to provide education to providers regarding the process, and to assist in preventing denial of claims following full implementation. The soft launch is expected to be a period of approximately three months. Throughout the soft launch, claims will continue to pay even if there is not a matching visit in EAS but providers will receive an informational exception on their Remittance Advice (RA). The claims not matching visits in the EAS will be denied once the full implementation of claims validation begins and will require corrections in the provider's EVV system and resubmittal of the claim for payment.

This service is highly utilized by individuals enrolled in DD waivers in order to assist them to remain in the community. In addition, the prior authorization and billing for these services process through the Department of Mental Health's CIMOR system prior to being sent to MHD's MMIS system for claims processing. Due to the intense provider education, coordination with EVV vendors, and assistance to correct billings, DD requests two FTE (2 Senior Program Specialists).

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

The Division of Developmental Disabilities is requesting funding to support two additional FTE to assist in educating providers, coordinating with EVV vendors, and assisting billing corrections. The salary is comparable to the salary of current Senior Program Specialists in the division.

FLEXIBILITY REQUEST FORM

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

DEPARTMENT REQUEST

DMH is requesting 100% flexibility between 10.410 and 10.415 appropriations for FY 2027. The DD Health Home was originally requested in DD Community Programs appropriation 10.410 and was moved to its own appropriation during the 2024 legislative session. Because this is a new program, the Division needs flexibility to pay providers should more individuals enroll in the program than originally projected. The information below shows a 100% calculation for FY 2027 budgets.

3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

DD Health Home program began July 1, 2024. During the first two years of its implementation, the Federal Medical Assistance Percentage (FMAP) authorized by the Centers for Medicare and Medicaid Services (CMS) for DD Health Home Medicaid expenditures was 90% which resulted in the federal government reimbursing the state 90% of the program expenditures. This 90% FMAP rate will end June 30, 2026, and will decrease to the blended FMAP percentage of 64.658%. This change will result in a net cost shift from federal to General Revenue funds for the DD Health Home program. A corresponding core reduction in federal funds is included in the FY27 budget.

The Federal Authority is Social Security Act 1905(b).

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)

A General Revenue (GR) pickup is requested in the amount of \$2,789,309. The DD Health Home program is no longer eligible for a 90% federal reimbursement. Beginning July 1, 2026, the program will be reimbursed at the standard FMAP rate of 64.658%; therefore, additional GR funding is needed. A corresponding federal reduction is included in the FY27 budget.

2. CORE DESCRIPTION

Funding for Patients Post-Discharge provides reimbursement to hospitals for individuals who qualify for placement and support through the Division of Developmental Disabilities (DD) programs, but who may not be discharged when eligible due to a lack of availability within an appropriate community placement. Individuals with developmental disabilities who either live at home or in residential settings with assistance from the Division of DD are brought to the hospital for medical care. Discharge requires a release to a safe environment; however, some patients who have developmental disabilities can be very difficult to place in a safe environment, thus the discharge cannot occur. This can happen when their spot at a facility is filled, the facility refuses to accept them, or an aging parent can no longer care for them. The Division of DD is limited in its ability to support these individuals by the availability and willingness of providers. Hospital staffing and resources continue to provide care to these individuals until a safe and available placement is identified. This funding provides a small per diem payment to assist hospitals in covering costs for these patients while the Division of DD works on a long-term solution for these individuals.

In order for hospitals to apply and receive funding, they must fill out an attestation identifying the individual awaiting placement and the cost continuing to house the individual post discharge. After reviewing and determining if the costs meet all appropriate requirements, then the division reimburses hospitals until appropriated funds are exhausted.

2. CORE DESCRIPTION

The Division of Developmental Disabilities (DD) assures that every individual eligible for DD services is assigned a service coordinator who is responsible for that individual's service plan. The service coordinator works with the individual's family, interested parties, and staff at regional offices to develop a person-centered plan with services based on goals and needs for that individual. Once a plan is agreed upon and put in place, the service coordinator is responsible for arranging services and monitoring delivery. The service coordinator is the point of contact for the individual for questions and concerns from family members, physicians, and providers. They also coordinate necessary paperwork and applications required of the family or guardian. The Division of DD's Regional Offices employ service coordinators and service coordination supervisors. An effective, well trained service coordinator is the crucial link between the individual, the family and the Division of DD's service delivery system. Working through service contract details, MO HealthNet changes, authorizations, Individualized Supported Living (ISL) budgets, and other paperwork, the service coordinator ensures that services are available and delivered to the satisfaction of the individual or the family, and in accordance with the Department of Mental Health (DMH) guidelines and regulations.

The Community Support Staff house bill section contains funding for DMH service coordinators as well as Targeted Case Management (TCM) support positions. This funding is allocated to the appropriate regional offices.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 750101B BUDGET UNIT NAME: Central MO Regional Office HOUSE BILL SECTION: 10.500	DEPARTMENT: Mental Health DIVISION: Developmental Disabilities
--	---

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

Flex appropriations for the regional offices allow the Department to:

- Create statewide capacity to increase efficiencies in care coordination, maximize quality and oversight, and improve processes through contracting as new ideas are developed. Historically Regional Offices were set up as regional state service providers, with individuals coming for treatment/staying for care when needed. Flexibility gives management the ability to continually review whether it is more beneficial to contract for services, hire staff in-house to provide services, or provide a mix of both contracting and in-house services.
- React to emergency situations that could occur in any given fiscal year. Flexibility allows available funds to be shifted to cover critical equipment/supply needs that would otherwise go unmet. This could include such things as security enhancements, phone systems, etc. The flex language allows the regional offices to flex personal services dollars when available and purchase facility furnishings, equipment, etc. as needed.

DEPARTMENT REQUEST

DMH is requesting 50% flexibility between regional offices and 25% flexibility between PS and EE based on total GR and FED funding for FY 2027. Requested flexibility will allow DMH to respond to changing regional needs in support of DD individuals, and where necessary, reallocate funds between Central, Kansas City, St. Louis, Springfield, and Sikeston Regional Offices to increase efficiencies in program coordination, maximize quality and oversight, and improve processes through contracting as needed.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 750104B BUDGET UNIT NAME: Kansas City Regional Office HOUSE BILL SECTION: 10.505	DEPARTMENT: Mental Health DIVISION: Developmental Disabilities
---	---

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

Flex appropriations for the regional offices allow the Department to:

- Create statewide capacity to increase efficiencies in care coordination, maximize quality and oversight, and improve processes through contracting as new ideas are developed. Historically Regional Offices were set up as regional state service providers, with individuals coming for treatment/staying for care when needed. Flexibility gives management the ability to continually review whether it is more beneficial to contract for services, hire staff in-house to provide services, or provide a mix of both contracting and in-house services.
- React to emergency situations that could occur in any given fiscal year. Flexibility allows available funds to be shifted to cover critical equipment/supply needs that would otherwise go unmet. This could include such things as security enhancements, phone systems, etc. The flex language allows the regional offices to flex personal services dollars when available and purchase facility furnishings, equipment, etc. as needed.

DEPARTMENT REQUEST

DMH is requesting 50% flexibility between regional offices and 25% flexibility between PS and EE based on total GR and FED funding for FY 2027. Requested flexibility will allow DMH to respond to changing regional needs in support of DD individuals, and where necessary, reallocate funds between Central, Kansas City, St. Louis, Springfield, and Sikeston Regional Offices to increase efficiencies in program coordination, maximize quality and oversight, and improve processes through contracting as needed.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 750109B BUDGET UNIT NAME: Springfield Regional Office HOUSE BILL SECTION: 10.515	DEPARTMENT: Mental Health DIVISION: Developmental Disabilities
---	---

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

Flex appropriations for the regional offices allow the Department to:

- Create statewide capacity to increase efficiencies in care coordination, maximize quality and oversight, and improve processes through contracting as new ideas are developed. Historically Regional Offices were set up as regional state service providers, with individuals coming for treatment/staying for care when needed. Flexibility gives management the ability to continually review whether it is more beneficial to contract for services, hire staff in-house to provide services, or provide a mix of both contracting and in-house services.
- React to emergency situations that could occur in any given fiscal year. Flexibility allows available funds to be shifted to cover critical equipment/supply needs that would otherwise go unmet. This could include such things as security enhancements, phone systems, etc. The flex language allows the regional offices to flex personal services dollars when available and purchase facility furnishings, equipment, etc. as needed.

DEPARTMENT REQUEST

DMH is requesting 50% flexibility between regional offices and 25% flexibility between PS and EE based on total GR and FED funding for FY 2027. Requested flexibility will allow DMH to respond to changing regional needs in support of DD individuals, and where necessary, reallocate funds between Central, Kansas City, St. Louis, Springfield, and Sikeston Regional Offices to increase efficiencies in program coordination, maximize quality and oversight, and improve processes through contracting as needed.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 750110B BUDGET UNIT NAME: St. Louis Regional Office HOUSE BILL SECTION: 10.520	DEPARTMENT: Mental Health DIVISION: Developmental Disabilities
---	---

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

Flex appropriations for the regional offices allow the Department to:

- Create statewide capacity to increase efficiencies in care coordination, maximize quality and oversight, and improve processes through contracting as new ideas are developed. Historically Regional Offices were set up as regional state service providers, with individuals coming for treatment/staying for care when needed. Flexibility gives management the ability to continually review whether it is more beneficial to contract for services, hire staff in-house to provide services, or provide a mix of both contracting and in-house services.
- React to emergency situations that could occur in any given fiscal year. Flexibility allows available funds to be shifted to cover critical equipment/supply needs that would otherwise go unmet. This could include such things as security enhancements, phone systems, etc. The flex language allows the regional offices to flex personal services dollars when available and purchase facility furnishings, equipment, etc. as needed.

DEPARTMENT REQUEST

DMH is requesting 50% flexibility between regional offices and 25% flexibility between PS and EE based on total GR and FED funding for FY 2027. Requested flexibility will allow DMH to respond to changing regional needs in support of DD individuals, and where necessary, reallocate funds between Central, Kansas City, St. Louis, Springfield, and Sikeston Regional Offices to increase efficiencies in program coordination, maximize quality and oversight, and improve processes through contracting as needed.

2. CORE DESCRIPTION

The Division of Developmental Disabilities (DD) operates Bellefontaine Habilitation Center that provides services as an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID). As a part of the service system for persons with developmental disabilities, the habilitation center continues to provide ICF/IID level of care in a structured environment on their campus. The primary mission of this facility is to provide active treatment and residential services in an ICF/IID setting. This often demands intensive seven-days-a-week active treatment under close professional supervision in an environment conducive to each individual's development. Bellefontaine Habilitation Center also provides statewide crisis beds to help support individuals in need of short-term crisis/evaluation services.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 750111B BUDGET UNIT NAME: Bellefontaine Habilitation Center HOUSE BILL SECTION: 10.525	DEPARTMENT: Mental Health DIVISION: Developmental Disabilities
---	---

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

Flex appropriations for the facilities allow the Department to:

- Shift funds to follow a consumer who moves to a new location. When a consumer moves from on-campus to a state-operated Individualized Supported Living (ISL) in the community or to another on-campus facility, flexibility is needed to allow funds to move with the consumer in order to cover the cost of services at the new residential setting. The flexibility improves the Division's ability to streamline operations between facilities.
- React to changing conditions in areas such as housekeeping, security and pharmacy. The flex appropriation allows facilities to continually review whether it is more beneficial to contract for services, hire staff in-house to provide these services, or provide a mix of both contracting and in-house services.
- React to emergency situations that could occur in any given fiscal year. Flexibility allows available funds to be shifted to cover critical equipment/supply needs that would otherwise go unmet. This could include such things as client furniture, security enhancements, medical supplies, etc. The flex language allows facilities to flex personal services dollars when available and purchase facility furnishings as needed.
- Pay overtime costs for staff, when funds are available.
- Provide a staff-to-consumer ratio of 1:1, if required for certain DMH consumers. This situation puts an additional strain on personal services needs. The flex language provides the flexibility needed to obtain staff necessary to meet the clients' needs.
- Contract out to fill vacancies if a facility is unable to find someone to hire (i.e., physicians, nursing staff, etc.). Contract staffing expenditures have increased significantly across DD facilities. Without the necessary flex increases, these facilities will face shortfalls in covering their costs.

DEPARTMENT REQUEST

DMH is requesting 10% flexibility between PS and EE, 15% flexibility between facilities and 15% flexibility for the Purchase of Community Services based on total GR and FED funding for FY 2027. Requested flexibility will allow DMH to ensure staffing needs are met through in-house or contracted staff between Bellefontaine HC, Higginsville HC, Northwest Community Services, Southwest Community Services, St. Louis DDTC and SEMORs.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 750113B BUDGET UNIT NAME: Higginsville Habilitation Center HOUSE BILL SECTION: 10.530	DEPARTMENT: Mental Health DIVISION: Developmental Disabilities			
1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.				
Flex appropriations for the facilities allow the Department to: • Shift funds to follow a consumer who moves to a new location. When a consumer moves from on-campus to a state-operated Individualized Supported Living (ISL) in the community or to another on-campus facility, flexibility is needed to allow funds to move with the consumer in order to cover the cost of services at the new residential setting. The flexibility improves the Division's ability to streamline operations between facilities. • React to changing conditions in areas such as housekeeping, security and pharmacy. The flex appropriation allows facilities to continually review whether it is more beneficial to contract for services, hire staff in-house to provide these services, or provide a mix of both contracting and in-house services. • React to emergency situations that could occur in any given fiscal year. Flexibility allows available funds to be shifted to cover critical equipment/supply needs that would otherwise go unmet. This could include such things as client furniture, security enhancements, medical supplies, etc. The flex language allows facilities to flex personal services dollars when available and purchase facility furnishings as needed. • Pay overtime costs for staff, when funds are available. • Provide a staff-to-consumer ratio of 1:1, if required for certain DMH consumers. This situation puts an additional strain on personal services needs. The flex language provides the flexibility needed to obtain staff necessary to meet the clients' needs. • Contract out to fill vacancies if a facility is unable to find someone to hire (i.e., physicians, nursing staff, etc.). Contract staffing expenditures have increased significantly across DD facilities. Without the necessary flex increases, these facilities will face shortfalls in covering their costs.				
DEPARTMENT REQUEST				
DMH is requesting 10% flexibility between PS and EE, 15% flexibility between facilities and 30% flexibility for the Purchase of Community Services based on total GR and FED funding for FY 2027. Requested flexibility will allow DMH to ensure staffing needs are met through in-house or contracted staff between Bellefontaine HC, Higginsville HC, Northwest Community Services, Southwest Community Services, St. Louis DDTC and SEMORs.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 750117B BUDGET UNIT NAME: Northwest Community Services HOUSE BILL SECTION: 10.535	DEPARTMENT: Mental Health DIVISION: Developmental Disabilities			
1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.				
Flex appropriations for the facilities allow the Department to: • Shift funds to follow a consumer who moves to a new location. When a consumer moves from on-campus to a state-operated Individualized Supported Living (ISL) in the community or to another on-campus facility, flexibility is needed to allow funds to move with the consumer in order to cover the cost of services at the new residential setting. The flexibility improves the Division's ability to streamline operations between facilities. • React to changing conditions in areas such as housekeeping, security and pharmacy. The flex appropriation allows facilities to continually review whether it is more beneficial to contract for services, hire staff in-house to provide these services, or provide a mix of both contracting and in-house services. • React to emergency situations that could occur in any given fiscal year. Flexibility allows available funds to be shifted to cover critical equipment/supply needs that would otherwise go unmet. This could include such things as client furniture, security enhancements, medical supplies, etc. The flex language allows facilities to flex personal services dollars when available and purchase facility furnishings as needed. • Pay overtime costs for staff, when funds are available. • Provide a staff-to-consumer ratio of 1:1, if required for certain DMH consumers. This situation puts an additional strain on personal services needs. The flex language provides the flexibility needed to obtain staff necessary to meet the clients' needs. • Contract out to fill vacancies if a facility is unable to find someone to hire (i.e., physicians, nursing staff, etc.). Contract staffing expenditures have increased significantly across DD facilities. Without the necessary flex increases, these facilities will face shortfalls in covering their costs.				
DEPARTMENT REQUEST				
DMH is requesting 10% flexibility between PS and EE, 15% flexibility between facilities and 30% flexibility for the Purchase of Community Services based on total GR and FED funding for FY 2027. Requested flexibility will allow DMH to ensure staffing needs are met through in-house or contracted staff between Bellefontaine HC, Higginsville HC, Northwest Community Services, Southwest Community Services, St. Louis DDTC and SEMORs.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 750118B	DEPARTMENT: Mental Health
BUDGET UNIT NAME: Southwest Community Services	
HOUSE BILL SECTION: 10.540	DIVISION: Developmental Disabilities

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

Flex appropriations for the facilities allow the Department to:

- Shift funds to follow a consumer who moves to a new location. When a consumer moves from on-campus to a state-operated Individualized Supported Living (ISL) in the community or to another on-campus facility, flexibility is needed to allow funds to move with the consumer in order to cover the cost of services at the new residential setting. The flexibility improves the Division's ability to streamline operations between facilities.
- React to changing conditions in areas such as housekeeping, security and pharmacy. The flex appropriation allows facilities to continually review whether it is more beneficial to contract for services, hire staff in-house to provide these services, or provide a mix of both contracting and in-house services.
- React to emergency situations that could occur in any given fiscal year. Flexibility allows available funds to be shifted to cover critical equipment/supply needs that would otherwise go unmet. This could include such things as client furniture, security enhancements, medical supplies, etc. The flex language allows facilities to flex personal services dollars when available and purchase facility furnishings as needed.
- Pay overtime costs for staff, when funds are available.
- Provide a staff-to-consumer ratio of 1:1, if required for certain DMH consumers. This situation puts an additional strain on personal services needs. The flex language provides the flexibility needed to obtain staff necessary to meet the clients' needs.
- Contract out to fill vacancies if a facility is unable to find someone to hire (i.e., physicians, nursing staff, etc.). Contract staffing expenditures have increased significantly across DD facilities. Without the necessary flex increases, these facilities will face shortfalls in covering their costs.

DEPARTMENT REQUEST

DMH is requesting 10% flexibility between PS and EE, 15% flexibility between facilities and 15% flexibility for the Purchase of Community Services based on total GR and FED funding for FY 2027. Requested flexibility will allow DMH to ensure staffing needs are met through in-house or contracted staff between Bellefontaine HC, Higginsville HC, Northwest Community Services, Southwest Community Services, St. Louis DDTC and SEMORs.

2. CORE DESCRIPTION

The Division of DD operates Southwest Community Services as a MO HealthNet Waiver ISL (Individualized Supported Living) provider to support individuals in the community. State-operated ISLs in the community have been used to effectively support individuals who have transitioned from facility to community settings. In addition, Southwest Community Services helps to support individuals in need of short-term crisis/evaluation services. This appropriation is for a portion of the overtime cost needed to operate this 24/7 facility.

2. CORE DESCRIPTION

The Division of Developmental Disabilities (DD) operates St Louis Developmental Disabilities Treatment Center that provides services as an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID). As a part of the service system for persons with developmental disabilities, the habilitation center continues to provide ICF/IID level of care in a structured environment on their campus. The primary mission of this facility is to provide active treatment and residential services in an ICF/IID setting. This often demands intensive seven-days-a-week active treatment under close professional supervision in an environment conducive to each individual's development. St Louis Developmental Disabilities Treatment Center also provides statewide crisis beds to help support individuals in need of short-term crisis/evaluation services.

FLEXIBILITY REQUEST FORM

BUDGET UNIT NUMBER: 750120B BUDGET UNIT NAME: St. Louis DDTC HOUSE BILL SECTION: 10.545	DEPARTMENT: Mental Health DIVISION: Developmental Disabilities																																			
1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.																																				
Flex appropriations for the facilities allow the Department to: • Shift funds to follow a consumer who moves to a new location. When a consumer moves from on-campus to a state-operated Individualized Supported Living (ISL) in the community or to another on-campus facility, flexibility is needed to allow funds to move with the consumer in order to cover the cost of services at the new residential setting. The flexibility improves the Division's ability to streamline operations between facilities. • React to changing conditions in areas such as housekeeping, security and pharmacy. The flex appropriation allows facilities to continually review whether it is more beneficial to contract for services, hire staff in-house to provide these services, or provide a mix of both contracting and in-house services. • React to emergency situations that could occur in any given fiscal year. Flexibility allows available funds to be shifted to cover critical equipment/supply needs that would otherwise go unmet. This could include such things as client furniture, security enhancements, medical supplies, etc. The flex language allows facilities to flex personal services dollars when available and purchase facility furnishings as needed. • Pay overtime costs for staff, when funds are available. • Provide a staff-to-consumer ratio of 1:1, if required for certain DMH consumers. This situation puts an additional strain on personal services needs. The flex language provides the flexibility needed to obtain staff necessary to meet the clients' needs. • Contract out to fill vacancies if a facility is unable to find someone to hire (i.e., physicians, nursing staff, etc.). Contract staffing expenditures have increased significantly across DD facilities. Without the necessary flex increases, these facilities will face shortfalls in covering their costs.																																				
DEPARTMENT REQUEST																																				
DMH is requesting 10% flexibility between PS and EE, 15% flexibility between facilities and 30% flexibility for the Purchase of Community Services based on total GR and FED funding for FY 2027. Requested flexibility will allow DMH to ensure staffing needs are met through in-house or contracted staff between Bellefontaine HC, Higginsville HC, Northwest Community Services, Southwest Community Services, St. Louis DDTC and SEMORs.

2. CORE DESCRIPTION

The Division of Developmental Disabilities (DD) operates Southeast Missouri Residential Services (SEMORS) that provides services as an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID). As a part of the service system for persons with developmental disabilities, the habilitation center continues to provide ICF/IID level of care in a structured environment on their campus. The primary mission of this facility is to provide active treatment and residential services in an ICF/IID setting. This often demands intensive seven-days-a-week active treatment under close professional supervision in an environment conducive to each individual's development. Southeast Missouri Residential Services also provides statewide crisis beds to help support individuals in need of short-term crisis/evaluation services.

1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.

Flex appropriations for the facilities allow the Department to:

- Shift funds to follow a consumer who moves to a new location. When a consumer moves from on-campus to a state-operated Individualized Supported Living (ISL) in the community or to another on-campus facility, flexibility is needed to allow funds to move with the consumer in order to cover the cost of services at the new residential setting. The flexibility improves the Division's ability to streamline operations between facilities.
- React to changing conditions in areas such as housekeeping, security and pharmacy. The flex appropriation allows facilities to continually review whether it is more beneficial to contract for services, hire staff in-house to provide these services, or provide a mix of both contracting and in-house services.
- React to emergency situations that could occur in any given fiscal year. Flexibility allows available funds to be shifted to cover critical equipment/supply needs that would otherwise go unmet. This could include such things as client furniture, security enhancements, medical supplies, etc. The flex language allows facilities to flex personal services dollars when available and purchase facility furnishings as needed.
- Pay overtime costs for staff, when funds are available.
- Provide a staff-to-consumer ratio of 1:1, if required for certain DMH consumers. This situation puts an additional strain on personal services needs. The flex language provides the flexibility needed to obtain staff necessary to meet the clients' needs.
- Contract out to fill vacancies if a facility is unable to find someone to hire (i.e., physicians, nursing staff, etc.). Contract staffing expenditures have increased significantly across DD facilities. Without the necessary flex increases, these facilities will face shortfalls in covering their costs.

DEPARTMENT REQUEST

DMH is requesting 10% flexibility between PS and EE, 15% flexibility between facilities, 30% flexibility for the Purchase of Community Services based on total GR and FED funding for FY 2027. Requested flexibility will allow DMH to ensure staffing needs are met through in-house or contracted staff between Bellefontaine HC, Higginsville HC, Northwest Community Services, Southwest Community Services, St. Louis DDTC and SEMORs.

2. CORE DESCRIPTION

The Division of Developmental Disabilities (DD) operates Southeast Missouri Residential Services (SEMORS) that provides services as an Intermediate Care Facility for Individuals with Intellectual Disabilities (ICF/IID). As a part of the service system for persons with developmental disabilities, the habilitation center continues to provide ICF/IID level of care in a structured environment on their campus. The primary mission of this facility is to provide active treatment and residential services in an ICF/IID setting. This often demands intensive seven-days-a-week active treatment under close professional supervision in an environment conducive to each individual's development. This appropriation is for a portion of the overtime cost needed to operate this 24/7 facility.

2. CORE DESCRIPTION

Tuberous sclerosis complex (TSC) is a genetic disorder that involves growth of tumors or other abnormalities in multiple organs of the body including the brain, skin, eye, heart, lungs, and kidneys. This disease can have many different presentations and symptoms, but most commonly TSC afflicts infants and children with developmental delay, intellectual disability, autism, and intractable seizures. As a result, many people with TSC and their families are left dealing with life-long neurological disabilities. Although TSC is not widely recognized by the general public and receives relatively limited clinical resources, TSC has a similar prevalence as the better-known neurological disease, Duchenne's muscular dystrophy, and is more common than Amyotrophic lateral sclerosis (ALS-Lou Gehrig's disease). Thus, there is a great need to develop ways to help improve the lives of this significant population of patients through better clinical care and research.

This appropriation is used for research and treatment of tuberous sclerosis.

GLOSSARY FUNDING SOURCES

Abandoned Fund Account: This fund collects moneys and other personal item dispositions and then transfers the cash to the Mental Health Trust Fund.

Budget Stabilization Fund: The revenue comes from a transfer from the Missouri Department of Social Services. These federal funds originated from the enhanced Federal Medical Assistance Percentage (FMAP) federal funds received from the Families First Coronavirus Response Act and the Coronavirus Aid, Relief, and Economic Security (CARES) Act.

Children's Health Insurance Program (CHIP): Insurance program that provides low-cost health coverage to children in families that earn too much money to qualify for Medicaid but not enough to buy private insurance.

Compulsive Gamblers Fund (CGF): Section 313.842, RSMo., authorized a fund to provide treatment services for compulsive gamblers and their families. The fund is supported through the collection of one cent of the admission charge from gambling boats as provided in 313.820, RSMo. This fund receives its revenue by way of a cash transfer from the Gaming Commission Fund.

Developmental Disabilities Waiting List Trust Fund (DDWLTF): HB 631, 96th General Assembly, first regular session, allows the Division of Developmental Disabilities to receive monies designated on individual or corporation tax refund forms to serve individuals on the DD waiting list. The legislation also established a new fund in the state treasury to receive these funds. Proceeds collected as a result of the tax refund forms shall be deposited into the new fund.

Federal (FED): Authority is appropriated to accept funds coming to the Department from federal grant sources or Medicaid earnings.

Federal Stimulus Funds: Funds received from the federal government to help stimulate the economy and provide assistance through the Coronavirus pandemic.

General Revenue (GR): Missouri State revenues.

Habilitation Center Room and Board Fund (HCRB): This fund is for the receipt of room and board charges for residents of state habilitation centers.

HCBS FMAP Enhancement Fund: The American Rescue Plan increases the federal matching rate (FMAP) for Medicaid HCBS spending by 10 percentage points April 1, 2021 through March 31, 2022. Funds must be used to enhance, expand, or strengthen current Medicaid HCBS services.

Healthy Family Trust Fund (HFT): This is a State fund supported from tobacco funding awarded to the State of Missouri.

Health Initiatives Fund (HIF): This is a State fund established through the Griffin Health Care Access Bill which receives new revenues from cigarette tax.

GLOSSARY FUNDING SOURCES

ICF/IID Reimbursement Allowance Fund (ICF/IID): To account for assessment payments received from providers of services of intermediate care facilities for individuals with intellectual disabilities.

Inmate Revolving Fund (IRF): The Inmate Revolving Fund was established in accordance with 217.430, RSMo. The sources of revenue for the fund are reimbursements from offenders participating in work release, electronic monitoring, and residential treatment facility programs and, per 217.690, RSMo. from the payment of a fee, not to exceed sixty dollars per month, from every offender placed under board supervision on probation, parole, or conditional release. Per 217.430, RSMo. the funds shall be used as provided by appropriation, to support offenders in education programs, drug treatment programs, residential treatment facilities, other community-based sanctions, electronic monitoring, or in work or educational release programs. Section 217.690, RSMo. further states that funds may be used for the costs of contracted collections services as well as to provide community corrections and intervention services for offenders. Such services include substance use disorder assessment and treatment, mental health assessment and treatment, electronic monitoring services, residential facilities services, employment placement services, and other offender community corrections or intervention services designated by the board to assist offenders to successfully complete probation, parole, or conditional release. The Department of Corrections (DOC) currently charges a fee of \$30 per offender under community supervision but may waive all or part of that fee based on factors such as disability or inability to pay. DOC agreed on the \$30 fee with the bill's sponsors when the intervention fee went into effect, but they allowed for the possibility of raising the fee in the future. The Department of Mental Health/Division of Alcohol & Drug Abuse, in conjunction with the DOC, utilizes a portion of these fees for the following programs: Community Partnerships for Restoration (CPR), Treatment Resources Encouraging New Directions (TREND) and Southeast Missouri Treatment program (SEMO). The first two programs, CPR and TREND provide assessment, case management, substance use disorder treatment and employment placement for high risk offenders. The third program SEMO, provides substance use disorder counseling for high risk probationers who otherwise would be unable to afford the treatment. All three of these programs are important components of the Department's efforts to reduce recidivism.

Inter-Governmental Transfer Fund (IGT): This fund is only used when the Department makes an Upper Payment Limit (UPL) claim on the state-operated ICF/IID habilitation centers to draw down additional federal funds for the State. The UPL is a method of calculating a supplemental federal payment in the Medicaid program based on Medicare cost principles.

Mental Health Earnings Fund (MHEF): There are several sources of cash deposited to this fund. One source is from the ADA Counselor Certification Board and another is the Substance Abuse & Traffic Offenders Program (SATOP). These are basically self-funded programs where expenditures are limited to the amount of revenues brought into the fund. Other sources include enterprise operations where the Department is reimbursed by private entities for activities such as food service or Mental Health First Aid USA.

Mental Health Interagency Payments Fund (MHIPF): This fund provides the mechanism for cooperative agreements between various agencies and the authority to accept funding from another state agency or DMH facility as a result of providing a service to that agency. Appropriations from this fund are considered a "double appropriation" in the statewide budget. An example of interagency payments would include agreements with the Children's Division to provide residential care and recovery for youth who require DMH services.

GLOSSARY FUNDING SOURCES

Mental Health Trust Fund (MHTF): This is an appropriation account established by the legislature that allows individuals or organizations to contribute to the Department for clients or programs.
